

Wilmot Fire Department Resuming Issuance of Burn Permits for Contained Site and Open Burns

Thursday, June 25, 2020

The Wilmot Fire Department is now issuing new burn permits for Contained Site and Open Burns. New COVID-related safety precautions have been incorporated into the permit approval process. An on-line permit and payment option is available that will include a site visit to confirm that all requirements are met. During the site visit, the officer will take necessary precautions, and we are asking that people maintain the physical distancing requirement of 2 metres. Alternate arrangements for permit issuance and payment can be made if needed.

To begin online process, follow the link below.
