EXECUTIVE SUMMARY

Introduction

This plan has been prepared in order to provide key officials, agencies, and departments within the Township of Wilmot with a general guideline to the expected initial response to an emergency and an overview of their responsibilities during an emergency.

For this plan to be effective, it is important that all concerned be made aware of its provisions and that every official, agency, and department be prepared to carry out their assigned functions and responsibilities in an emergency. The following paragraphs provide an overview of the background and some of the highlights of this plan.

Background

Provincial Legislation entitled “The Emergency Management and Civil Protection Act R.S.O. 1990, Chapter E.9 Amended by: 1999, c.12. Sched. P, ss.3-9; 2002, c.14, ss.2-16; 2002, c.17, Sched.C, s.10; 2003, c.1, s.14; 2006, c. 13, ss. 1,2” (referred to hereafter as “the Legislation”) is the primary authority enabling municipalities to develop their own emergency response plan.

The Legislation also gives authority for the head of council to make decisions stating that the *head of council of a municipality may declare that an emergency exists in the municipality or in any part thereof and may take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect property and the health, safety and welfare of the inhabitants of the emergency area. R.S.O. 1990, c. E.9, s. 4 (1).*”

Highlights of the Plan

There are seven Lower-tier Municipalities within the Region of Waterloo, with each municipality having the responsibility for supplying the initial response in an emergency.

The Mayor of The Township of Wilmot may request assistance from the Regional Municipality of Waterloo by contacting the Regional Chair. This may be done **without** activating the Regional Emergency Alerting System.

However, when the resources of The Township of Wilmot are deemed insufficient to control the emergency, the Mayor will request that the Regional Chair or the Regional Chief Administrative Officer or the Regional Police Chief or the Regional Fire Co-ordinator activate the Regional Emergency Alerting System in the Regional Municipality of Waterloo Emergency Plan. This will be carried out by the Duty Officer, of the Waterloo Regional Police Service.

THE TOWNSHIP OF WILMOT EMERGENCY PLAN

PART I

INTRODUCTION, AIM, ALERTING SYSTEM, OPERATIONS CENTRE

1. Introduction

- (1) As per the Emergency Management Act, “emergency” means a situation or an impending situation caused by the forces of nature, an accident, an intentional act or otherwise that constitutes a danger of major proportions to life or property. Emergencies by their nature or magnitude require a coordinated response by a number of organizations, both governmental and private, under the direction of the appropriate elected and senior municipal officials, as distinct from routine operations carried out by organizations as normal day-to-day procedures.
- (2) While most peacetime emergencies could occur within the geographical area of The Township of Wilmot, those most likely to occur are: droughts, epidemics, hydro-electric power blackouts, transportation accidents involving hazardous material, air pollution, blizzards, extreme cold, floods, fog, hailstorms, lightning storms, tornados, windstorms, air or rail crashes, toxic or flammable gas leaks, building or structural collapse, critical infrastructure failures, extreme heat, snowstorms, mass casualty incidents, and the breakdown in flow of essential services/supplies due to strikes or any combination thereof.

2. Aim

- (1) The aim of the Township of Wilmot Emergency Plan is to outline a plan of action for the efficient deployment, and co-ordination of the Township's services, agencies and personnel to provide the earliest possible response in order to:
 - (a) protect and preserve life and property;
 - (b) assist the Region of Waterloo and or other Lower-tier Municipalities as requested;
 - (c) minimize the effects of the emergency on the Township of Wilmot; and
 - (d) restore essential services.

3. Emergency Alerting System

- (1) The Mayor or the Chief Administrative Officer or the Regional Police Chief or the Township Fire Chief or alternates may request that the Duty Officer of the Waterloo Regional Police Service activate the Emergency Alerting System.

- (2) The Duty Officer of the Waterloo Regional Police Service is responsible for alerting members of the Emergency Control Group and passing on such information as required. (refer to Appendix I)
- (3) The Emergency Alerting System is illustrated in Diagram #1, (page 5) of this plan.
- (4) Members of the Emergency Control Group who will not be notified by the Waterloo Regional Police Service are to refer to Appendix 1-A Township of Wilmot Alerting System for call-out procedure.

4. Emergency Operations Centre

4.1 Introduction

- (1) In the event of an emergency, an Emergency Operations Centre (E.O.C.) will be established. The Emergency Control Group, the Support and Advisory Staff and other groups will congregate and work together at the Emergency Operations Centre to make decisions, share information and provide support as required to mitigate the effects of the emergency. The Chief Administrative Officer is responsible for the co-ordination of **all** operations within the Emergency Operations Centre.
- (2) The Emergency Operations Centre will consist of:
 - (a) a meeting room for the Emergency Control Group;
 - (b) a Communications room;
 - (c) a room for the Public Health and Social Services Support Groups;
 - (d) rooms for support and advisory staff and other groups as required; and
 - (e) a Media Information Centre and Press Conferences Area.

4.2 Location

- (1) The primary location of the Emergency Operations Centre is the Wilmot Township Municipal Building in Baden. A list of designated secondary Emergency Operations Centres is located in Appendix 2.
- (2) When a Regional emergency arises as a result of an emergency in the Township of Wilmot, the operations centre **may** be the same as that designated for the Emergency Control Group.
- (3) Where the emergency initially affects two or more Lower-tier municipalities, the Regional Operations Centre should be the Regional Emergency Operations Centre at 150 Frederick Street, Kitchener, as

appropriate. If not appropriate, the Regional C.A.O. will advise of the E.O.C. location.

4.3 Emergency Control Group Meeting Room

- (1) The Emergency Control Group requires a secure and quiet meeting room adjacent to the Communication Room.
- (2) To promote an effective emergency meeting, this room requires:
 - (a) a map(s) of suitable scale, depicting up-to-date information related to the emergency;
 - (b) a visual board depicting up-to-date status information on the emergency;
 - (c) a recording device and tapes suitable for recording Emergency Control Group meetings (optional);
 - (d) telephone(s) for outgoing calls only.

4.4 Communication Room

- (1) While the Emergency Control Group is engaged in meetings, they will require assistants to take messages and convey their decisions. Therefore, a separate communication room must be established in close proximity to the Emergency Control Group room.
- (2) To be effective, the Communications Room requires:
 - (a) maps of suitable scale depicting up-to-date information related to the emergency;
 - (b) a visual board depicting up-to-date status information on the emergency;
 - (c) a chronological log of all significant communications and events related to the emergency;
 - (d) sufficient outside telephone lines for all communicators and the Communications Manager. (In the event that there are not enough telephones available, the use of cellular telephones with batteries and/or back-up generators should be considered); and
 - (e) each emergency or support service with radio communication equipment will utilize this equipment in the Communications Room.
- (3) Each member of the Emergency Control Group should designate at least one or two persons, depending on the nature and scope of the emergency, to handle in-coming and out-going communications or assist as otherwise required.

- (4) The communicators will be responsible for operating telephones and radios within the Communications Room and relaying messages between their respective representatives on the Emergency Control Group and other key locations.

- (1) If necessary, a Communications Manager will be designated by the Chief Administrative Officer to co-ordinate activities and communications within the Communications Room. The Communications Manager and an assistant will be selected at the time of the emergency with preference given to an experienced Police Communicator, a member of a Fire Department not directly involved with the incident, or a Regional or Lower-tier Municipality employee with Emergency Planning experience, as available.
- (2) The Communications Manager will be responsible for:
 - (a) providing the Chief Administrative Officer with reports on the emergency situation and any other pertinent information at regular intervals, or as requested;
 - (b) providing assistance to the communicators in relation to communication equipment problems, where possible and practical;
 - (c) co-ordinating and prioritising the flow of messages between the Communications Room and the Emergency Control Group, and other desired groups or locations;
 - (d) maintenance of a chronological log of significant communications and events;

Introduction:

One of the final responsibilities of the Emergency Control Group is to determine if there is a need to establish a **Recovery Committee**. Its role is to return the community and its citizens to its pre-emergency state as quickly and as much as is possible. In order to ensure continuity between the emergency and the recovery operations, both the Mayor and the Chief Administrative Officer are members of both groups.

Depending on the type of the emergency, the **Recovery Phase** may require minimal resources, monies spent and or time required to restore the community to its pre-emergency state. However, if there are casualties, demolished buildings, a disruption of public services and infrastructure as a result of the emergency, the recovery phase may impact more in community services than the emergency itself.

The nature of the emergency and the final authority responsible for it will take the lead role in the recovery. If the Township was responsible for controlling the emergency, the Township will also lead the recovery. Similarly, if the emergency was declared at a higher level of government, then that level will take the lead.

This plan assigns key civic officials the roles and responsibilities necessary to bring the Township of Wilmot back to its pre-emergency state through a variety of activities. The Recovery Phase Plan will be activated at the direction of the Emergency Control Group, consistent with the Emergency Plan, normally once the immediate response to the emergency has been completed. It is possible to be undertaking emergency response and recovery measures simultaneously, which may make it difficult to define precisely where one begins and the other ends. Recovery efforts may be initiated while a state of emergency is in effect. This plan assumes that the role with respect to Media Co-ordination will continue during the recovery phase. Issues that need to be addressed fall into three general areas: human needs; infrastructure, and disaster relief. Resolving these issues has obvious financial, economic, social, environmental and political implications. In light of these implications, the Recovery Committee and its sub-committees and their organizational reporting structures have been established for the Recovery Phase of an Emergency.
