KEEP ON TRACK

The Walker Woods Trail is marked by blazes. The blazes are white painted indicators, 5cm x 15cm rectangles. You will find the markings on trees and other noticeable features trail-side. Typically the blazes are on the right side as you travel along the path. A single blaze indicates the trail continues straight ahead. Double blazes indicate a directional change of the trail. On double blazes it is the upper marker that indicates the direction to follow.
