

Wilmot Township to reopen the Wilmot Recreation Complex Splash Pad on Friday, June 26

Baden, ON – Monday, June 22, 2020 – The Wilmot Recreation Complex splash pad will reopen on Friday, June 26, 2020 at 11:30am until 6:30pm. It will be open seven days per week, weather permitting. The splash pad will be fenced and supervised by staff as recommended by Public Health guidelines and Provincial Orders, and a maximum of 50 people will be allowed within the fenced area at any one time. This approach aligns with Phase 2 of Ontario’s framework for reopening, and the June 8 provincial announcement permitting the opening of additional recreation amenities and facilities.

Along with fencing, additional safety procedures will be in place in an effort to help prevent the spread of the COVID-19 virus. Participants will be able to enjoy the splash pad in 50-minute increments to allow for disinfection of key touch points between groups of users. There will be a first come, first served entrance process to allow equal access to residents. Participants are welcome to join back into the entrance line and may regain re-entry if capacity allows. Parents and guardians are asked to either join their children inside the gates as a part of the limited capacity; or they may choose to view from outside the fenced area (while monitoring children for physical distancing). Children age 10 and under must be accompanied by an adult to the splash pad.

Important information to consider before arriving:

- Operation is weather dependent
- Capacity is 50 participants; however, this is subject to change if additional physical distancing measures are required
- Participants will be permitted entry on the half hour in 50-minute increments to allow time to disinfect
- Children should arrive dressed to enjoy the splash pad as there will be no access to indoor change rooms and outdoor washroom use is limited to one individual and/or one family at a time
- It is the parent/guardian’s responsibility to monitor their children for physical distancing
- Picnic tables and benches are not disinfected
- Chlorine levels have been raised as an extra precaution
- Staff reserve the right to close the splash pad at any time
- The playground adjacent to the splash pad remains closed
